Subject: 08.12.08 Morris Thompson Cultural & Visitors Center

Governor,

Here are your remarks and event info for the Morris Thompson Cultural & Visitors Center Dedication. A few things to be aware of:

-About 15 min. of Native dance and song will take place before first speaker, so you could arrive as late as 2:10 p.m., if you so choose
-Sen. Murkowski is one of the first speakers and will be leaving immediately after her remarks
-all several hundred gathered for event will go over ceremonial 'bridge' into building; I have marked on your hard copy floor plan (Kris will give to you) where you are to go, and will go over it with Melissa as well
-I believe every speaker in attendance either knew Morris or is related to him; as such, Cindy asked that you speak about the funding of the MTCVC, and put a big plug in for community involvement.
-Cindy Schumaker (Tanana Chiefs) will introduce you in the following manner:

"Our next speaker joined the project when it was already in progress, but she stepped forward in a big way by including it in her capital budget. In total, the state of Alaska provided $6.1M for this project, and for that, we thank you Governor Palin!"

Thank you, Cindy. It's my honor to be here with all of you today, as we celebrate Morris Thompson, a man who did so much for AK. And we celebrate Fairbanks & the Interior communities, too, for coming together as one on this worthy project.

A few months ago, I was working on the state's budget with a highly-skilled team, reviewing stacks of requests for state funding, & determining which projects met the criteria. For the past 2 years, I have told communities across AK that I want to see community support for projects that are specific to a region; I want to understand how projects requesting funds will benefit their community long-term. You have done this in Fairbanks with this beautiful Cultural & Visitors Center.

My budget team & I quickly became convinced that the group working on this project had their community's full support. Fairbanks & the Interior cared about getting this facility constructed & they worked together to make it happen. You truly set an example of the power of community, one that the rest of AK can look to.

In years to come, thousands upon thousands will meet in this building that you came together to support. In it, they will find unity, understanding, compromise & a way forward. And I cannot think of a better way to honor

Morris Thompson – a great man & AKn.

Thank you & God bless!

After you finish speaking, Cindy will wrap up with,

"Thank you Governor Palin. Your support has helped us leverage an additional $4M in private support and for that we are grateful."

-you are free to leave anytime after your remarks, if you do not wish to attend the potlatch

Please let me know if you have any questions or concerns. Thank you!

Subject: 08.09.08 Renewable Energy Fair Remarks & Event Info

Importance: High

Governor,

Here are your remarks and event info for tomorrow's Renewable Energy Event. I know you've reviewed these already (thanks to Melissa), but here they are for easy access just in case. Rosanne will have back-up remarks and info for you at the event, as well. If you have any questions or concerns, please feel free to email or call.

Thanks so much!

Confidential

Dear Governor Palin,
Next week, probably on Wednesday APOC will announce that in working with our dept. Ashley Reed will be charged with at least five misdemeanors for failure to report properly with APOC. I will forward a copy of the draft complaint against him when I get it which will probably be Monday. This is not yet public information. Talis

Nah- too quick of a visit. I had a long time to speak to stevens about it that day though.
The Pres and I spoke about military, incl Track's deployment and how iraq is a different place than it was a year ago. He also spoke about (and we joked about) VP buzz.

Subject: Shoes for Today

Just talked with Mitch Diementieff in Fairbanks. Asked him whether we needed our break-up boots in Nenana. Said regular shoes will be fine.

The bridge area was boggy, but Mitch says DOT did a nice job of cutting the grass and fixing things up for the occasion.

Said it's not raining at the moment. Let's hope we can bring some of today's beautiful sunshine to Fairbanks and Nenana.

Rhonda

Subject: ANWR/Seismic

Per Mike's request, I've drafted the = correspondence below from Governor Palin to President Bush expressing her = support for the request made by ten Senators that the President authorize = seismic work in the coastal plain of ANWR.

The Honorable George W. Bush
The White House
Washington, DC 20500

Dear Mr. President:

As Governor of Alaska, I'm writing to express = my strong support for the request made on August 1, 2008 by ten US = Senators that you issue an Executive Order authorizing seismic work by the = US Geological Survey on the coastal plain of the Arctic National Wildlife = Refuge (ANWR).

I know that you are very familiar with the = reasons for Congressional action to permit environmentally responsible oil = and gas development in a small portion of the coastal plain. So, I = won't reiterate these arguments here, except to express my appreciation = for your previous support.

There has been no seismic activity in ANWR = since 1983. During this time, seismic technology has evolved = considerably, and so-called (3-D) seismic can tell us much more about the = sub-surface geology of the coastal plain than techniques available in the = early 1980's. Moreover, current technology is non-invasive;= there would virtually be no surface or sub-surface impact.
=

As you know, Section 1003 of the Alaska = National Interest Lands Conservation Act requires

Congressional authorizati= on for exploratory drilling and development within the coastal plain. = However, seismic work is neither of these. Rather, such work = represents an effort to obtain necessary information to guide federal = decision makers while honoring the original Congressional intent in = Section 1003. I would think that, no matter whether one currently = supports of opposes oil development in ANWR, everyone would benefit from = additional information concerning the most promising unexplored petroleum = province in North America.

In my opinion, the energy situation affecting = this country verges on a national emergency. The development of our = oil and gas resources is not a solution by itself, but it should be part = of any comprehensive energy policy.

Increasingly, Americans are recognizing = the importance of domestic oil and gas development in ANWR and the federal = OCS. Unfortunately, a majority of Congress has not yet caught up to = this sea-change in public opinion and understanding. It is my = hope that the information derived from seismic work will add = important content to the current debate in Congress and among the American = people about whether to authorize full scale development and production in = approximately 2,000 acres of the coastal plain.

For the foregoing reasons, I respectfully = request that you use your authority as President to improve our knowledge = of the coastal plain and its potential to the enhance national security = and economy of the United States. Thank you for your = consideration of my request.

cc: Vice President Richard = Chaney
Secretary = Dirk Kempthorne
Secretary = Samuel Bodman
Senator = Ted Stevens
Senator = Lisa Murkowski
Congressman= Don Young
Senator = Harry Reid
Senator = Mitch McConnell

I'm reading the keynote for tomorrow's renewable energy speech- it's only a couple of minutes long... are you sure I'm the keynote? I'd think this should be much longer. Did Joe or Steve add to this?

MESSAGE:

Dear Governor,

I have come to know today that you have a child with Down

Syndrome. We have too! It's the greatest gift of God- a priceless one. My son, Joseph Francis is now 9years and he will be ten this coming 22nd of this month(August).

He will be in Fifth Grade come September. He masters the alphabets with his fingers, and all great stuffs, that make us so happy and very proud of him.

Of course, after the first three challenging tasks, being his advocate with the providers

of intervention programs, the therapists, medical doctors, and hospital. Now, I can sleep quietly and let him live the best of his life with our faith in God!

First we were advised to have the pregnancy terminated.But my wife as our family is God-loving, decided to let the child get out of this world and give him the best we could and let him enjoy, have fun with his life!

To add color to his life, we live three blocks away from Beth Israel Hospital here in Manhattan. My wife gave birth inside the cab and the driver helped me deliver the baby right there

in front of the Emergency Room, in the middle of the street and later on assistaed by the hospital staff. Later on, the driver

introduced himself that he was a practicing pediatrician

in Hungary! He was one of the godfathers during the baptism.

Upon know that the child has down syndrome, we prayed so hard and talked to the Lord. For him to give me the message. The following day, I got a book from my mailbox, the book about

JONAH! With tears, I said to the Lord:" Yes, Lord, your will be done."

Governor, all the best! You can emial me or give me a call.

Sincerely,

Francis/Maria Tapiculin

MESSAGE:

Dear Governor Palin,

I am the grandmother of a 2 1/2 year old little girl named Kenzlee who also has Down Syndrome. My daughter did not get tested during her pregnancy - she was 26 - because she did not see a need (The outcome of the test would not have changed anything anyway). When she was born, we went through shock, grief (the plans they had would not necessarily come to pass), acceptance (this was no surprise to God!), and JOY! We have had unbelievable joy with her...even her stubborn attitude sometimes! We thank God for her just like she is...God has a plan for her and God has a plan for Trig. Enjoy every day..they truly are blessings.....

God bless you and your family!

Mary Cordes

Subject: Re: September

Someone can figure that all out. I'm sure we'll find out all along the way (because it seems to be the nature of the beast called government) that we CAN'T do things that make sense to me and the other commoners... but hopefully this will succeed with all the wise people we have in state service. Simply and efficiently being able to kick off September as Conservation Month. Not too bureaucratic, not too complcated. Just sensible and effective.

With regard to a conservation-measures card attached to resource rebate checks. We cannot physically insert them with the "tax advices" that are sent to those who receive the payment by direct deposit (nearly 80% of recipients). We could possibly insert such a card with the checks that will go out to those who get a check.

My question is whether there is a more comprehensive option? Can we could send something to all households, maybe tie it in with "Conservation Awareness September" events?

I'll check with AEA on options.

-Pat

Subject: September

Needs to be "Conservation Month" (call it "September Savings" or something you clever people come up with) where we kick off a big public effort to conserve... using Juneau as that example of how it IS possible to save energy. Included in our efforts will be the conservation-measures card to be attached to energy rebate checks.

Let me know how this will be rolled out with a rah-rah Alaskana community effort that shows public unity with this mission. Thanks

(Kris- pls forwarded to Dan Fauske, he can help with this... then pls let me know who'll lead this charge)

Dear Erika,

Your reply didn't make sense, "you will understand that in our positions our purpose is to serve the administrations that we work for and ensure that the main focus of the event remains intact."

Please clarify what the main focus was and how recognizing ALL other past House Managers in attendance, and not just a select few, might have derailed that focus. I seriously doubt that Governor Palin's Administration would tell you not to recognize me.

Sharon

From: "Eugene George Warner" <gene007@ak.net>
To: <gov.sarah@yahoo.com>
Sent: Friday, August 08, 2008 2:21 PM
Subject: Hello I am Gene Warner's wife

Dear Governor Palin,

I am responding to Gene's e-mails now that he is "one of the Good guys" taken down by IRS again.
He was arrested on indictment last week and I am devastated although this was inevitable.

Sorry no more prophetic word for anyone from Gene as the IRS via our "justice system" plans on keeping him forever.
Charges will not be adequately defended as they are refusing him bail no real means to defending himself as he will be a prisoner with strained communication priviledges.
He has much evidence to use to bring "truth to his actions" to this situation and has been told that he will not qualify for a public defender. I sense and perhaps I know they are planning not to allow him to even try to win any of his charges...and there are many. I was told earlier by lawyers who we sought info regarding what they were investigating us for....both answered they don't like Gene and they want blood from a tax protestor....but more correctly Gene was a system protestor and he hit more more than once.

Anyway I let you know because he has much respect for your love of God and the words He has for us..and he knows you are one who seeks the truth of corruption in our government. I knew you to be a friend and I am letting all our dear friends know he is no longer available in the way they knew him.

Forgive me if you are compromised by this information. Please let me know if it is and I will be happy to delete your address from his computer.

I only seek information now on how I would go about contacting the proper authority that handles what I found to be an "Apostille" a document signed by the Lieutenant Govenor in August of 2004. There is a number assigned to it #H-35635.

I am seeking to see if it something that is valid....and still in effect.
Can you point me in the right direction to accomplish this? God bless you in all of your efforts for you walk with a loving God and He loves you and all that is about you very much. Gene saw this in you and appreciated the interchange of "God's messages in His effort to speak to us today".

Lorna Kehaulani Warner..
